

Andrew Trammell

Andrew was the top fundraiser for the first three Dave's Race events at VIR, with 100% of the proceeds going to ALS TDI for pharmaceutical research. He met the Lloyd brothers at his very first track event in early 2019 and was blown away by their kindness and generosity. After learning of Dave's diagnosis, and really learning for the first time what ALS was, Andrew immediately joined the fight to help end this horrible disease. Andrew is the CEO of Carolina's Home Medical Equipment, lives in Charlotte, obviously loves cars, and enjoys spending time with his wife and two children.
