

Norm Adams

I had the pleasure of getting involved with Racing For ALS in late 2019 after meeting Dave and Scott Llyod, as well as Scott Weatherford, at VIR and CMP events. The Racing For ALS mission hit close to home after speaking with Dave, and after the loss of my dear friend, Russell Clary, in 2016. I am a Director of Regional Sales for Pharmavite, a category leader in the VMS/Nutritional space. My company allows me the time to give back to the community and seek a better life for all. I am a resident of the Charlotte, NC area. I have two amazing adult children, Lindsey and Logan. Logan has been involved in Racing for ALS at various fundraisers, with hopes of getting more involved in the near future. Aside from my duties with Racing For ALS, I am also a board member with Hometown Heroes of Union County. Our mission is to help children battling childhood cancer, and their families. I have also been a longtime volunteer with Common Heart Food Pantry in Union County up until July 2021. Finding a cure for ALS is a MUST for our team, and I am so honored to be apart of this journey with these amazing people. Please consider joining our fight to create awareness and raise funds to benefit those we touch in our community and across the country as our footprint expands. Our efforts wouldn't be possible without YOU and the support of ALS/TDI. #ENDALS #RacingforALS. God Bless!
